

I am writing in regards to the decision that you will be making to expand the LPFM service. It has come to my attention, that this expansion will force a crucial radio station, that is valuable to my family, off the air. I listen to Air1, in Las Vegas, on 89.3. I started to listen to it 4 years ago. Since then, it has served as my revival EVERYDAY. There is really NO other station that I will listen to. I simply can't. Air1, has good, clean, music, that brings me closer to my faith. I have two toddlers, and I have NEVER had to worry about them hearing words, or comments that I don't want them to hear. As a matter of fact, this is one radio station that the FCC DOESN'T have to regulate. There is never any foul language, and the comments are never in bad taste. It is one of the ONLY radio stations that I have come to feel comfortable listening to. I honestly WON'T listen to anything else. The content of the radio hosts on secular radio, and the music they play is outright offensive!!! I don't understand why the FCC would want to bring in LPFM, that would wipe out such a family oriented radio station. With today's violence, and disrespect people show, it is hard to find a radio station that my children can listen to, and that I feel comfortable of the contents being repeated from their innocent mouths. To push Air1 off the radio would be an outrage! Air1 services the public with a refuge from the disgusting music, and content I hear on today's secular radio stations. I am literally offended with the music I hear today. It teaches the young today about things only adults should be able to relate to. On Air1, they not only play music for ALL people to listen to, but they are an outreach for the community. They have volunteer staff 24 hours a day, that are available for people in crisis. Anytime that I have need them, they were there. They are there for EVERYONE. Anyone can call, and get the help that they need. They reach out to the public, and make you feel comfortable in asking for the help and assistance people might be in need of. With Air1, I can have the radio playing, without the worry that my children are going to learn the derogatory words that have come so pitifully accepted by society today. If you want to clean up the airwaves, expanding LPFM, and pushing Air1 off the air is a step backwards! You might as well bring back that sick pig Howard Stern. KEEP AIR1 IN MY LOCAL RADIO STATION 89.3!!!!!!!!!!!!!!!!!!!!!!!!!!!!
